Digital Education: Out to the World and Back to the Campus

Massive Open Online Courses (MOOCs) have marked a milestone in the use of technology for education. The reach, potential, and possibilities of MOOCs are immense. But they are not only restricted to global outreach: the same technology can be used to improve teaching on campus and training inside companies and institutions. Come to EMOOCs 2017, the 5th European MOOCs Stakeholders Summit, to learn about the latest developments, share your insights, and get up-to-date with this exciting educational technology. The conference will be organized at Universidad Carlos III de Madrid/Spain, after successful conferences held in Lausanne (CH), Mons (BE), and Graz (AT). The OPENedX Conference 2017 will be co-located with EMOOCs 2017.
